

Product: **Earth Pit**

Catalogue No: **PIT03**

Description: Earth Pit for Pipe in Pipe and Earth Rod Installations

Key Features

- High Impact, UV Stabilized
- Easy Locking Lid
- Lightweight Design
- Ideal for paving and hot tar applications.

Description

The Earth Pit allows for secure and easy access for ground termination maintenance of earth rods.

The easy locking lid is rated to 5000kg and comes with a security key.

The UV stabilized Polypropylene material offers protection against sunlight degradation, and also is non-brittle to prevent cold weather damage.

Specifications
